Subject: Clarification of Existing Stocks Provisions under the Risk Mitigation Decision for Ten Rodenticides
Date: 12/01/2010 08:26 AM

Dear Ms. Siekkinen (Scimetrix),

Thank you your call at 1:14PM on November 24, 2010. You were seeking clarification because you had received a call from a customer who said a Liphatech representative had said that the Risk Assessment had been delayed and that 1 lb containers would be available for another 18 months. You were not aware of such a delay and were seeking clarification.

EPA has not delayed implementation of the RMD. Here is the official "Existing Stocks" provisions for products subject to the Risk Mitigation Decision [RMD] for Ten Rodenticides.

- The registrant may not distribute or sell existing stocks of this product after June 4, 2011 unless they conform to the terms and conditions of registration as amended today.
- Any person other than the registrant may sell and distribute existing stocks of this product with the previously approved label until such stocks are exhausted.
- Any person may use existing stocks of this product with the previously approved label until such stocks are exhausted.

We have been putting the above text on all approvals for products subject to the RMD for the past several months to clarify our "Existing Stocks" provisions under the RMD.

If you have any more questions, please let me know.

Thank You,

Daniel B. Peacock, Biologist
